SULTHANUL **PARIS**

Computer Science Engineer

....

👤 PROFESSIONAL PROFILE

I'm a computer science engineer with a strong drive to solve complex problems using technology. I'm skilled in programming and software development, and I'm dedicated to advancing technology and creating user-friendly software solutions that benefit both users and organizations.

Leadership	Honest	Problem Solving
Active Listening	Team Work

🔗 My Portfolio

🔍 MY WORKS

ISLAMIC PATHWAYS

Developed and launched an innovative and user-friendly website, 'Islamic Pathways,' dedicated to providing comprehensive resources on Islamic teachings, including Quranic surahs, religious practices, and cultural appreciation

🔗 GO TO WEBSITE

NOTE APP USING REACT JS

I created a note taking application using React.js, which demonstrates my proficiency in React.js, managing state and designing for screen sizes. The app provides an user friendly experience, for taking notes with an interface that's easy to navigate and helps users be more productive.

🔗 GO TO WEBSITE

PERSONAL PORTFOLIO

I designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript to showcase my skills, projects, and experiences.

🎓 EDUCATION

PA COLLEGE OF ENGINEERING
2020-CURRENT

B.E IN COMPUTER SCIENCE ENGINEERING
GPA : 9.1

ST SEBASTIAN PU COLLEGE THOKKOTTU 2018-2020

Successfully completed the second pre-university college (PUC) program with distiction

ASSISI CENTRAL SCHOOL, DERALAKATTE -2018

Successfully completed my secondary education with distinction marks in SSLC

👨‍🏫 EDUCATIONAL GUIDANCE

- I teach mathematics to SSLC and 2nd PUC students, helping them improve their math skills and knowledge

- I teach Quran classes, delivering essential Tajweed guidance for improved Quranic recitation and understanding.

📋 PROJECTS

BIKE RENTAL SYSTEM:

- I created a bike rental system using JavaScript, HTML, CSS, PHP, and MySQL, featuring a user-friendly interface for customers to browse and book available bikes. The system includes a bike availability tracking mechanism to ensure bookings only for available bikes.

ATOM SIMULATION USING OPENGL AND C++

- Created Atom Simulation with OpenGL & C++, showcasing expertise in graphics and interactive UI. Developed accurate atom models with nucleus and electron orbits, demonstrating strong C++ and graphics programming skills.

ARABIC LEARNING ANDROID APP

- Experienced in Android app development with Java in Android Studio. Expertise in UI design, core functionality implementation, and performance optimization. Proficient in Android SDK, XML layout design, and Git for version control. Skilled in testing, debugging, and app deployment.

TEMPERATURE MONITORING SYSTEM:

- I developed a temperature sensor project using LM35 and integrated displays for temperature visualization. I thoroughly documented the project, including circuit diagrams, code, and user instructions.

♥ INTERESTS & HOBBIES

PROBLEM SOLVING:

I dedicate my free time to programming challenges and coding competitions on platforms like CodeChef. It hones my problem-solving skills, introduces me to new algorithms and data structures, and keeps me updated on programming trends.

SPORTS & FITNESS

I am an avid sports enthusiast and find great relaxation and enjoyment in engaging in physical activities.

JAVASCRIPTS PROJECTS

During my free time, I enjoy working on personal JavaScript projects.

POSTER MAKING

I have a deep interest in creating posters for customers. I use my creative skills to design visually appealing and effective posters that convey their messages or ideas in a clear and engaging way.

COMPETITIVE PROGRAMMING PROFILE

CODECHEF

HACKERRANK

✕ SKILLS

PROGRAMMING LANGUAGE
